### Other important tidbits....

- **VIEWING:** Please understand viewing is ONLY through the windows. Only staff and gymnasts are to be in the gym area which is any area to the sides or behind the cubbies. People knocking on windows, waving to kids and calling to children in class is VERY disruptive & dangerous. When children are distracted, you are compromising not only the safety of your child, but the others in the gym.
- **PARKING:** Please use extreme caution when entering & exiting the parking lot. The circle is NOT for parking or standing. This creates MAJOR problems in the parking lot. Park in a marked space to bring your child in and pick up from class. The fire inspector does stop in unannounced and will ticket those parked illegally.
